EUROFLEX 3504C / 3506C / 3508C

Euroflex Product Notes

- Generously sculpted one-piece shell is injection molded from proprietary high-impact, blush-resistant polypropylene plastic with an antistatic additive
- The collaborative seat design can comfortably sit in four directions
- The dual-textured surface is etched to provide a non-slip surface and maintains a like-new appearance over years of use
- Responsive, active back encourages proper task position as well as ventilation
- Seat back incorporates handle for movement
- All-tubular design with round 16-gauge steel is attached to the shell with four concealed machine rivets
- Inverted stacking for floor maintenance
- All welding is done prior to plating so it is not exposed
- Standard chrome finish of 4-6 mils withstands 22 hours of harsh CASS test per ATSM B 368 before rust (25%-50% more than industry standard)
- Standard powdercoat finishes hide fingerprints and offer greater wear resistance
