Also expressly excluded under this warranty is vinyl and fabric upholstery material and normal wearing parts. Normal use is defined as use that occurs during a normal 40-hour work week by persons weighing 250 lbs or less.

This warranty is nontransferable and is intended for the original purchaser only.

USACapitol reserves the right to make changes in product design, construction methods, materials, and colors. We reserve the right to discontinue any product without notice.

No other warranties expressed or implied are given on products manufactured by USACapitol.

Company shall not be liable for, does not assume, and expressly disclaims, any liability, responsibility and damages: due to any buyer/end user's failure to comply with this warranty, including improper installation, use or operation; use with products from other manufacturers that do not meet company product standards, contact with incompatible materials, chemicals, excessive weight, and vandalism; due to reasonable wear and tear and due to any acts of nature, including lightning, earthquakes, ground movement, frost heave or floods.

#### Color Variations/Finishes:

Some natural color variation occurs in thermoset hard plastic and is inherent to its character. Some color variation occurs in polypropylene injected molded components. These variations cannot be avoided and are therefore not considered defects. Chrome plating is a chemical process by which nickel physically bonds to a metal surface, then chrome bonds to the nickel. Due to the length of our welds, some may appear blackish grey in areas under the seat or desktops. Some surface rust may occur on nickel/chrome in indoor areas with poor environmental controls. These cannot be avoided and therefore are not considered defects. Powder coating is applied electrostatically and is then cured under heat to allow it to flow and form a skin. This surface will wear over time.
